

April Spring Cleaning

It's that time of year again! Yes, you guessed it! It's Spring! Which means.... Time to clean out those cluttered Closets and Janitorial Rooms!

Tip of the month: Keeping computer screens clean

Here are a few hints on how to keep a computer screen looking clean whether at work or at home.

- Firstly, power down the monitor before you begin.
- Do not use** any all-purpose household cleaners or anything containing ammonia or alcohol.
- Using a soft cloth, dust off the monitor and gently wipe down the screen.
- If the screen is still not clean, use a lightly moistened cloth to clean the monitor. Use distilled water, or a 50/50 mixture of white vinegar and distilled water.
- Use light, rapid circular movements so as to eliminate any streaking.

Next Month's Employee Incentives are....
